OCCUPY SONOMA COUNTY

EARTH ACTION CAMPAIGN

Call To Action!

We urge all groups including schools, neighborhood associations, organizations, clubs and groups of any kind to adopt a Climate Declaration. Adopt ours or write your own. Share your Climate Declaration with local governments, the media, write articles, and share information.

Occupy Sonoma County Climate Declaration

Occupy Sonoma County, along with concerned, forward thinking people all over the world, declares that climate change has reached catastrophic proportions as evidenced by the current level of CO2 in the atmosphere, the melting of polar ice caps, and the continual rising of global temperatures. This is a global emergency, and we must act immediately. We invite all forces of life to join together for our survival.

We stand up for life. We recognize that the root of climate change is a capitalist system run by money greedy corporations and the governments that they control. We actively oppose greenhouse gas producers, nuclear power investors, and fossil fuel companies by boycotting their products, developing alternatives, divesting from corporations that endorse them and insisting that governments at all levels take action. We call on all governments and corporations to adopt life-sustaining practices immediately.

The people must act now to stop this destruction from continuing and reverse the damage this has caused. The future is in our hands.

We are the 99%!

“When the last tree is cut, the last fish is caught, and the last river is polluted; when to breathe the air is sickening, you will realize, too late, that wealth is not in bank accounts and that you can’t eat money.”

~ Alanis Obomsawin, filmmaker

Earth Action campaigns like ours are mobilizing against big money and special interests that are creating a global emergency, but we can win **because we are the 99%!**
